

FORAGE FIRST™
WHEN YIELD AND QUALITY MATTER™

P R E M I U M
Jump Start
P A S T U R E M I X

Jump Start Pasture Mix is a quick establishing mixture that is an excellent choice for overseeding existing stands or short-rotation pastures. Jump Start Pasture Mix performs well on poorly drained sites, but does best on moderately well-drained soils.

- Highly palatable
- Very responsive to fertilization
- Provides early spring and fall forage
- Maintains solid summer performance with adequate moisture

SUITABLE SOIL TYPES

LIGHT	MED	HEAVY

PLANTING RATE

new pastures:
30-40 lbs/acre

overseeding:
10-20 lbs/acre

PLANTING TIMES

Best in early spring and early fall when weather is cooler and moisture more reliable

PLANTING ZONES

Northern Tier States
